

Reading Review — Anna Bokhonko

A2 Key for Schools — every wrong question, with the original text and why the correct answer is right.

Part	Score	Wrong
1 — short notices	4/6	Q4, Q6
2 — three texts, matching	5/7	Q9, Q13
3 — long article	5/5	— none
4 — word-choice cloze	5/6	Q24
5 — open cloze	5/6	Q27

Part 1 — notices

Q4 — "Concert tickets: Buy these on the school website, then collect them from the office"

A. Pay for tickets online before picking them up at school ✓ B. Check the website for when tickets are available **C. Let the office know soon if you plan to buy tickets**

Why A: two-step process — buy online, then collect from office. C invents contacting the office beforehand, which the notice never asks for.

Q6 — "Swimming Competition: To enter the races, you must be able to swim more than 200 metres."

A. Swimmers at all levels can enter **B. This competition is for people who can swim over 200m** ✓ **C. The races will be 200 metres long**

Why B: "swim more than 200m" is a minimum ability requirement to enter — it says nothing about the length of the actual races.

Part 2 — three texts (Amy / Flora / Louisa), garden competition

Amy: "won a prize... flowers all different colours" · Flora: "won second prize... our prize is a visit to a special garden with butterflies" · Louisa: "flowers all yellow... teacher taught us about the butterflies"

Q9 Whose class won a trip? **chosen: A Amy** correct: **B Flora** ✓

Why Flora: Amy won a prize too (TV film), but only Flora's prize is specifically a **visit/trip**.

Q13 Whose class chose flowers the same colour? **chosen: A Amy** correct: **C Louisa** ✓

Why Louisa — direct contradiction: Louisa's flowers are "all **yellow**" (one colour). Amy's text says the opposite: "all **different colours**". Worth flagging — picking the exact opposite of what's written means the key adjective got skipped, not just guessed wrong.

Part 4 — "Wivenhoe hotel" word-choice cloze (only 1 wrong)

Q24 — "the best hotel they have ever ___ at" **chosen: A entered** correct: **B stayed** ✓

Why "stayed": "stay **at** a hotel" is the fixed phrase for a guest's visit. "Enter at" isn't correct English — you enter a *place*, no "at".

Part 5 — open cloze (email)

Q27 — "I heard that a ___ of Canadians speak two languages" **written: fact** correct: **lot** ✓

Why "lot": "a lot of + people" is the quantity phrase the gap needs. "A fact of Canadians" isn't an English phrase — "fact" doesn't take "of + people" this way.

Pattern: Anna's mistakes cluster around picking an option that repeats a real word from the text but ignores a small qualifying detail — a minimum requirement mistaken for a fact (Q6), a "prize" mistaken for a "trip" (Q9), and most tellingly Q13, where she chose the option stating the *opposite* of the text. That points to reading fast for the general topic rather than checking the one key word each question hinges on. Q4/Q24/Q27 are fixed-phrase gaps (pay online *before* picking up, stay *at* a hotel, a lot *of*) — a short collocation drill would help, but Part 1–2 accuracy will likely improve fastest just from slowing down.
