

Reading Review — Jadviga Reduta

A2 Key for Schools — every wrong question, with the original text and why the correct answer is right.

Part	Score	Wrong
1 — short notices	5/6	Q5
2 — three texts, matching	5/7	Q9, Q11
3 — long article	2/5	Q14, Q15, Q16
4 — word-choice cloze	1/6	Q19, Q20, Q21, Q22, Q23
5 — open cloze	5/6	Q25

Part 1 — notices

Q5 *What should Andy do? — "I'm playing football with Tom this afternoon... Do you want to come too? Let me know. — Jake"*

A. invite friends to play football **B. tell Jake if he can join him later ✓** ~~C. show Tom where Woodside School is~~

Why B: the message's real purpose is Jake's invitation + "Let me know" — that needs a reply. "Woodside School" is just background detail, not something Andy is asked to do.

Part 2 — three texts (Amy / Flora / Louisa), garden competition

Amy: "won a prize... flowers all different colours" · Flora: "won second prize... our prize is a visit to a special garden with butterflies" · Louisa: "flowers all yellow... teacher taught us about the butterflies"

Q9 *Whose class won a trip?* ~~chosen: A Amy~~ **correct: B Flora ✓**

Why Flora: Amy won a prize too (TV film), but only Flora's prize is specifically a **visit/trip** ("a visit to a special garden").

Q11 *Whose class learnt about the insects?* ~~chosen: B Flora~~ **correct: C Louisa ✓**

Why Louisa: Flora's butterflies are only where her prize trip goes — she didn't learn about them. Louisa says "our teacher **taught us**" about the butterflies — that's actual learning.

Part 3 — "Starting at a new school" (Anna Gray, 11)

Q14 *How did Anna feel about moving? — "I was **excited** to move to a new school"*

~~chosen: A worried about older children~~ **correct: B happy about doing something different ✓**

Why B: the text's exact word is "excited", not worried — A is invented, nothing in the text supports it.

Q15 *Who is Anna's best friend now? — "I started talking to the girl who was sitting beside me in maths. She lives near me..."*

~~chosen: B someone from her home area~~ **correct: C someone she met in her new class ✓**

Why C: "she lives near me" comes *after* they'd already met in class — that's how Anna found out, not why they became friends. Classic wrong-order trap.

Q16 *What does Anna say about the timetable? — "there were lots of subjects, **some were quite new to me**"*

~~chosen: C difficult to understand~~ **correct: A includes subjects she didn't do before ✓**

Why A: "new to me" describes the subjects, not the timetable being confusing — "difficult" in the text refers to lessons being harder, a different idea.

Part 4 — "Wivenhoe hotel" word-choice cloze (5 of 6 wrong)

Q19 "a big ____ between Wivenhoe and other hotels" ~~chosen: B variety~~ **correct: C difference ✓** — "difference **between**" is fixed; "variety" needs of/in, not between.

Q20 "young people who are ____ to get jobs" ~~chosen: C explaining~~ **correct: B hoping ✓** — "hoping to get a job" is natural; "explaining to get" isn't grammatical.

Q21 "jobs in the hotel or restaurant ____" ~~chosen: C career~~ **correct: B work ✓** — "hotel or restaurant work" is the set phrase; "career" needs its own article to sound right.

Q22 "their teachers ____ them carefully" ~~chosen: A see~~ **correct: C watch ✓** — "watch carefully" = supervise; "see carefully" isn't idiomatic.

Q23 "preparing menus and ____ the telephone" ~~chosen: A calling~~ **correct: B answering ✓** — "answer the telephone" is fixed; you call *a person*, not the phone.

Part 5 — open cloze (email)

Q25 "I'm glad that you like ____ new house" ~~written: A~~ **correct: your / the ✓**

Why "your": it's a specific, already-known house (the friend's own new house) — "a" is for something never mentioned before.

Pattern: in Parts 2–3 Jadviga picks the option that reuses a real word from the text but attaches it to the wrong person or the wrong cause/effect (Q9, Q11, Q15). In Part 4 she picks the closest general meaning but breaks the fixed collocation the gap needs (difference *between*, hoping *to*, watch *carefully*, answer *the* phone) — a vocabulary-in-context issue, not comprehension. Practice: "who said this exactly, and why" drills for Part 2/3; verb/noun + preposition collocations for Part 4.
